Christmas Morning Surprise is about a kid that wants a puppy for christmas. He writes a letter and sends it to Santa telling him about how he has been good all year. He goes to sleep and wakes up excited to see his new friend. When he runs down stairs and opens his gift, its a teddy bear. Slighty dissapointed, he hears his parents calling him to come to the front porch. Confused, he goes to see what they are talking about. He opens the door and there it is. A puppy for christmas. He could hardly believe that Santa had given him the gift that the wanted. It was the best Christmas ever.
